Although this document is only intended to exist in electronic form, I find it very convenient to have a hard copy to hand. It is easier to refer to a book than wait the five or ten minutes it takes to start up and close down a computer, just to obtain a single reference or check a fact. Books also give you the big picture of the document as a whole, rather than the small-screen glimpses we have all got used to. Accordingly, I printed and had bound a copy of this document in January 2007, which I have called the First edition, for convenience. Henceforth, I will have a copy bound each January, or thereabouts, provided the document has increased in size by at least ten percent since the previous printing. At the same time, I will send an update to the web files on http://bps.gr/fipliterature, where the electronic version of this document is hosted. Since printing and binding is quite an expensive undertaking, I donate the obsolete volumes to important philatelic libraries around the world.

In January 2007, I completed a major overhaul of the Bibliography of Cumulative indexes to Philatelic Periodicals and brought the references into line with those in this document, which was then called Histories of Individual Periodicals. It immediately became obvious that the overlap between the two documents was massive since both were listings in order of periodical title, each title being accompanied by complete bibliographic details of the periodical, its antecedent and successor titles, if appropriate. This duplication of effort could not be left unattended to, owing to the limited time I have available for creating these documents. Accordingly, after much vacillation, I determined to combine the two documents into this, renamed, Bibliography of Philatelic Periodicals. In order not to lose the historical origins of the Cumulative Indexes document, I added an Appendix to contain the basic data from its introductory pages. Although I began to merge the documents in 2007, the process was not completed until 2008.

Late in 2008, as I was bringing the formatting of the stand-alone Section 2.2.1.5 Bibliography of Current-Awareness and Retrospective Indexes into line with my current practice, it became obvious that the List of Periodicals Indexed it contained would duplicate much of the information on periodicals found herein. Accordingly, this list was removed from Section 2.2.1.5 and merged into the current volume. By the middle of 2012, this document was moving towards the 1,000 page mark and so, in line with my other documents, I simplified the set-up and turned off the remove widows and orphans feature. This resulted in a reduction in size of 36 pages. The simplification and condensation process continued in 2013 when the introductory text was reviewed and edited and a few further pages were eliminated.

This edition was printed on the first day of January 2014

1st edition, January 2007 A single bound copy of 146 pages with the title Histories of Individual Periodicals. It was donated to the Western Philatelic Library of Sunnyvale, California, when it was replaced in my library by the 2nd edition.

2nd edition, January 2008 A single bound copy of 275 pages with the title Bibliography of Philatelic Periodicals. It was donated to the Collectors Club of New York, when it was replaced in my library by the 3rd edition.

3rd edition, December 2008 A single bound copy of 443 pages. It was donated to the Rocky Mountain Philatelic Library of Denver, Colorado, when it was replaced in my library by the 4th edition. This edition was requested earlier than usual by Anthony Virvilis, the incoming President of the FIP Literature Commission.

4th edition, January 2010 A single bound copy of 568 pages. It was donated to the American Philatelic Research Library of Bellefonte, Pennsylvania, when it was replaced in my library by the 5th edition.

5th edition, December 2010 A single bound copy of 694 pages. It was donated to the National Philatelic Society of London, UK, when it was replaced in my library by the 6th edition.

6th edition, January 2012 A single bound copy of 853 pages. It was donated to the Royal Philatelic Society London, UK, when it was replaced in my library by the 7th edition.

7th edition, January 2013 A single bound copy of 855 pages. It was donated to the British Library of London, UK, when it was replaced in my library by the 8th edition.

8th edition, January 2014 A single bound copy of 935 pages. It was donated to The Royal Sydney Philatelic Club of Sydney, Australia, when it was replaced in my library by the 9th edition.

FOREWORD

This is a combination of Sections 2.2.1.2 and 2.2.1.4, also parts of Sections 2.2.1.3 and 2.2.1.5 of my masterwork:–

THE PHILATELIC BIBLIOPHILES COMPANION

Section 2.2.1.2 Histories of Individual Periodicals
Section 2.2.1.3 Periodicals Devoted to Philatelic Literature
Section 2.2.1.4 Cumulative Indexes to Philatelic Periodicals
Section 2.2.1.5 Current-Awareness & Retrospective Indexes

The original idea behind this Section was to compile a bibliography of articles giving the history of, or relating to individual periodicals. In reality, very few of the many thousands of philatelic periodicals that have been published have ever had anything significant written about them, never mind a complete history. Accordingly, the Reference entries for many periodicals consist of fairly minor but, to my mind, interesting or important notes. If this volume preserves this information and facilitates the easy access to it by others, it will have fulfilled its purpose.

At the same time as this Bibliography was being completed as part of The Philatelic Bibliophile’s Companion, I was busy listing in a separate document, all of the periodicals I had read whilst looking for relevant data to supplement all of my various works. Since these periodicals had actually passed through my hands, I made a point of including publication details as well as name changes and any other interesting information I came across. Belatedly, I realised that I was compiling the data on individual periodicals in two places - both in the ad hoc list of publications I had checked and in Section 2.2.1.2 of The Philatelic Bibliophile’s Companion. Deploiring duplication, I decided to incorporate the contents of Section 2.2.1.2 into this document and change its name, thereby making it a free-standing sub-document of The Philatelic Bibliophile’s Companion.

I realised subsequently that the same duplication existed in Section 2.2.1.4, Bibliography of Cumulative Indexes to Philatelic Periodicals and some of the data included in Section 2.2.1.3, Periodicals Devoted to Philatelic Literature and Section 2.2.1.5, Bibliography of Current-Awareness and Retrospective Indexes, Section 2.2.1.4. Parts of both of these last two have now incorporated into this document.

ACKNOWLEDGEMENTS

The first major document I started, many years ago, was the Bibliography of Cumulative Indexes to Philatelic Periodicals. It was the beginning of my serious efforts at philatelic bibliography and I required a great deal of guidance to bring me to my current state of knowledge. This Section was placed at the front of that early document as a note of my appreciation of the help of others. It is only fitting that it is moved to this document with which that first bibliography has been lately combined.

I can not fully express my thanks to, or acknowledge individually, the many hundreds of fellow philatelists who responded to my pleas for help and who supplied me with information,
passed my enquiries on to others or freely provided me, often at no cost to me, with the indexes and documents I sought and many other items that I didn’t even know existed. On several occasions, my enquiries for an obsolete index prompted the production of an up to date one.

As the Bibliography progressed, I sent sections to various individuals and organisations for criticism. Some, such as Gini Horn (Director of Library Services, American Philatelic Society) and David Beech (Head of the Philatelic Collections, The British Library), offered helpful suggestions or noted missing indexes, whilst others, notably Ian Crane (Deputy Librarian, Periodicals, Royal Philatelic Society London), Bill Hagan of USA and Michel Forand of Canada, provided substantial comments and corrections.

It is, however, to the late James Negus (1927-2008) that I am most indebted. Not only have I used his book *Philatelic Literature* as a guide to format and style, in order to cope with the numerous peculiarities encountered in philatelic bibliography, but I have also extracted from it many notes regarding individual periodicals. Most importantly of all, Jim provided pages of rigorous corrections and suggested many improvements, which I believe have greatly enhanced the final product.

Finally, I must thank Francis Kiddle who offered to host this and other unpublished documents relating to my long-term projects, on the FIP Literature Commission web site, now at [http://hps.gr/fipliterature](http://hps.gr/fipliterature).

INTRODUCTION

In the late 1970s whilst I was the Librarian of the Security Endorsement and Perfin Society of Great Britain, now the Perfin Society, I kept an index, on 3 inch by 5 inch (75mm x 125mm) cards, listing every issue of every periodical that I had checked for the perfin-related articles I sought for inclusion in the library. Naturally, I also looked for the items related to my other research interests, at the same time. When I gave up the position of Librarian, I kept up the index for some time but eventually, changing interests which forced me to re-visit periodicals checked earlier, together with the difficulties inherent in using a card index lead me to discontinue it.

In the intervening period, I relied heavily on my very fallible memory together with a few ad hoc lists of the major serials on which I was concentrating my efforts. In 2002, I bowed to the inevitable and began once again to list the periodicals I had checked – but this time on my infinitely flexible PC.

This document was clearly produced for my own use and as it grew in size, the question arose as to whether I should make the information it contained available to others? The answer relates to the manner in which I had referenced the periodicals in that I detailed all relevant data such as the publisher, dates of issue, changes of title &c. As this document grew it inevitably contained material of interest to bibliophiles. In addition, I often included notes about individual periodicals such as why they changed names or were discontinued, for example. Also, I concentrated my initial efforts on obtaining and reviewing the more obscure and difficult to obtain periodicals which are often absent from even the largest philatelic libraries and which are therefore very hard to trace. Eventually, I decided to bring all of the data relating to periodicals into a single document, as outlined in the Foreword, and it became a separately-published Section of The Philatelic Bibliophiles Companion.

Cumulative Indexes

Whilst the section on cumulative indexes stood alone, the most common suggestion from those to whom parts of this Bibliography were sent for comment, was that the latest or most complete index be highlighted, with the earlier or secondary indexes in an appendix. Although on the face of it, this is a reasonable and most-sensible proposal, it is often quite impractical to determine the principal index for many of the periodicals. Some periodicals have been extensively indexed but by different people, using their own terminology and criteria regarding what to include and what to leave out, and covering various overlapping time frames. Those who question my words should compare the two contemporary indexes to Issues 1 to 13 of the American Philatelic Congress Book, one produced by Jere. Hess Barr and the other by Walter R. McCoy. In other cases, early indexes were very comprehensive in their coverage whereas, when the index became more extensive due to the inclusion of additional volumes, the coverage was frequently reduced to keep the size of the index under control and facilitate its publication. The indexes to The Collectors Club Philatelist typify this variation in treatment. For example, the subject index to Volumes 9 to 10 compiled by William R. Ricketts, was almost as long as that to Volumes 1 to 18, compiled by Walter R. McCoy. In addition, author indexes were only included in two of the nine cumulative indexes (i.e. in the indexes to Volumes 1-18 and Volumes 31-39).

In any case, such abbreviated or selective bibliographies of cumulative indexes are best left to others whose scope and intention differs from mine and who do not therefore provide the
depth of coverage found herein\(^{(3, 4, 9, 10, 11, 12)}\).

The explanatory material which follows is divided into three sections:

1. **Periodicals**  
   This is intended to explain how the periodicals are ordered and indicate the general bibliographic arrangements.

2. **Cumulative Indexes**  
   This provides information specific to cumulative indexes.

3. **Current-Awareness & Retrospective Indexes**  
   This explains how some of this material has been integrated into this document and how to use the *Appendix*. 
ESSENTIAL REFERENCE DOCUMENTS

Many of the details relating to the individual periodicals are incomplete, being derived in so many cases from the ad hoc issues I have come across. In order to remedy this situation to at least some extent, I have relied on a number of publications which contain more or less reliable bibliographic information about periodicals. Full details of these sources are given below. Although I have taken the basic data on some publications from these documents, I have not reproduced all of the information they contain, particularly in the case of Bacon’s monumental work.

   - Following the publication of the *Catalogue of the Philatelic Library of the Earl of Crawford, K.T.* by the Society, many additions and corrections were published in this Journal as well as details of complete files of periodicals published after the Crawford Catalogue had been published.

   - An addendum was published as: *Edward Denny Bacon: Addenda to the “Supplement to the Catalogue of the Philatelic Library of the Earl of Crawford, K.T.”*, The Royal Philatelic Society, London, UK, 1938. (Published as a supplement to The London Philatelist, March 1938.)
   - Volume VII, complete with the Supplement and Addenda, was reprinted as: *Catalogue of the Crawford Library of Philatelic Literature at the British Library.*, The Printer’s Stone, Fishkill, NY, USA, 1991.
   - This was more than a Catalogue of the Earl’s Library, it was an attempt to list everything that had ever been published in the field of philately

   - This includes a first attempt at a bibliography of British periodicals published after 1926, as well as much ad hoc material on periodicals.

   - Chester Smith, encouraged and assisted by Gini Horn, then Librarian of the American Philatelic Research Library, continued to compile this list, enlarging it to include worldwide periodicals. The effort seems to have petered out in about 1999 and the result, covering in excess of 12,500 periodicals, was posted on the American Philatelic Research Library web site: [www.stamps.org](http://www.stamps.org), in 2010. In June 2010, I received from a friend at the American Philatelic Research Library a personal, ad hoc copy on a blank CD, annotated by hand as: *World Philatelic Periodicals.*, APRL, CD edition, 1999. In 2011, I printed and bound a hard copy which comprised 241 pages in an extremely small typeface.

In about 2011, the development of the *Royal Philatelic Society London Catalogue* required a complete list of all philatelic periodicals ever published in the world. In order to get as near to this as possible, **Frank Walton** took the databases of periodicals from the Royal’s Library, the *World Philatelic Periodicals* and my *Bibliographyof Periodicals* and combined them into a single database.
1. THE PERIODICALS

BIBLIOGRAPHIC ARRANGEMENTS

INTRODUCTION

It is essential that the users of this document can locate the periodical in which they are interested in and understand the information they find. Accordingly, I have brought together the background and essential information about how I have documented the periodicals, under this heading.

The basic principle is that the user is expected to be trying to locate the periodical, starting from its title. However, a great many periodicals were produced by societies and other organisations for their members and much important information, even titles, were omitted since the people receiving them knew what they were. Over time, these publications became more-professional, included the essentials, added a proper title – often a series of titles – and became easier to identify. This listing has been prepared on the assumption that some random issue of a journal is held by the user and attempts to lead them to the current or final title, bearing in mind that I may not have had access to information about every possible title or even the current title.

Many of the early society periodicals were simply titled Bulletin, Circular, Newsletter or their foreign equivalents such as Mitteilungen, Rundbrief, etc. This would result in dozens if not hundreds of entries under such titles. Accordingly, I have listed all such under the organisation’s name followed by a hyphen then the actual title:

Aero Philatelic Club - Bulletin

This information is noted in the Bibliography under each of the terms affected. However, where such terms are an integral part of a title such as Bulletin of the ..., the titles are given as they stand.

All of the important data is given under the periodical’s current title, or final title if it is no longer published, with cross-references to its earlier titles. I have chosen to include only one reference to an earlier or later title in each entry in order to keep the entries as simple as possible. Whilst this may mean following a trail of previous titles to find the full history of a periodical, it reduced the length of listings quite substantially for the numerous periodicals whose title had changed often.

Alphabetical arrangement:

Alphabetisation has been carried out using the word by word convention. The alphabetical order of a title is thus determined by the first proper word (or acronym) of the title. Numbers precede letters wherever they occur in the title. In the case of titles with the same initial word, then its alphabetical order depends on the second word, and so on. Accents on letters are ignored for the purpose of alphabetisation and are never transliterated. An umlaut on a letter, ü for example, is alphabetised as the letter u not the transliteration ue. A full stop, hyphen or other punctuation mark (except the apostrophe- see below) is considered to denote the end of a word and is treated essentially as a space. Therefore, B.P.M. is equivalent to B. P. M. or B P M but BPM
without any full stops or spaces, is treated as a word in its own right and put in the appropriate alphabetical order.

The apostrophe is ignored for the purpose of alphabetisation so that the order of similar titles depends only on their year of first publication and not on the positioning, presence or absence of the apostrophe – as in the Collectors Bulletin examples given below. Thus, the following order would apply:-

- B.P.M. News
- Bath Gate News, The
- Bath-Gate Philatelist, The
- Bath Gate Philately
- Bath Postal Museum News
- Bathgate Philatelist, Der
- BPM News
- British Philatelist, The
- Collectors’ Advocate, The
- Collectors’ Bulletin, The (1923-35)
- Collectors Bulletin (1954-55)
- Collectors Bulletin (1960-71)

For the purpose of alphabetisation, the initial article in the periodical’s title is ignored and is placed after the title as in the examples above. This applies also to foreign titles and common articles in various languages are given below:

- A; Der; El; Het, L’ La; O;

For those vanishingly few titles which are the same in a number of languages, namely Philatelist I have kept the various countries’ periodicals together by means of the initial article. Fore example:

- Philatelist, De (Dutch)
- Philatelist, Der (German)
- Philatelist, The (English)

Titles which are not in the same language as the periodical’s place of publication were originally an exception to this rule and the titles were given verbatim. However, since 2011 they have fallen in line, although it might take some time before they are all changed over.

**Title:**

The titles of the periodicals are underlined and in bold. Generally, the title used is that given on the title page or masthead of the publication, not its cover. Occasionally, where the title on the title page includes a large number of absorbed titles and the publication is really only known by its cover title, the latter has been used with a note to that effect. Periodicals with the same titles are given in order of their date of first publication. Titles starting with a number and foreign script titles will be found in their own section at the front of the listing.

**Publisher:**

Details of the original Publisher are given whenever possible. It has not been possible to record changes of publisher although I have tried to note changes which resulted in a change to the name of the periodical.
**Place of publication:**

The place of publication is the Town or City, State (USA) or Province (Australia and Canada) and Country where the first issue was produced. The place of publication of society periodicals varies with the location of the (usually) volunteer editor or publisher and is therefore not of any great significance. Accordingly, it is generally omitted from their entries unless required to differentiate it from a contemporary of the same name.

**Period of publication:**

The dates under the periodical’s final title cover the whole period for which it was published, irrespective of its changes of title. For interim titles, the years of publication and the extent of the periodical’s issues under this title are given. Titles still being published have only the year of first publication followed by *In progress*.

**Volumes:**

The French and Spanish tend to use the number of years since publication began rather than assign volume numbers to their periodicals, whereas the Germans often assign volume numbers in cumulative indexes and not to the periodicals to which the indexes apply. Such confusing practices are dealt with on an individual basis when they occur. Wherever possible, the total number of issues published under each title is given. Bear in mind that many periodicals used multiple numbers to give a fixed number of issues in each volume or to catch up on missing issues and an issue numbered 11/12 would be counted as two whole numbers.

**Notes:**

Wherever appropriate, one or more notes (denoted by arrow-shaped bullet points) are given following the bibliographic section. These notes give previous &/or subsequent titles as appropriate, together with other relevant or interesting information. Data is not normally duplicated and it is necessary to refer to previous titles to get the full history of a periodical. A key to terminology relating to title changes can be found in the next Section.

After the basic bibliographic information about the periodical, the following information may be found, each in its own section, under the periodical’s current or final title:

**Cumulative Indexes:**

Details of every cumulative index to the periodical.

**Current-Awareness & Retrospective Indexes:**

A list of every Current-Awareness and Retrospective Index which has included this title in its list of periodicals indexed, together with the period for which it was indexed.

**References:**

Occasionally, useful information about a title can be found in publications. References to these are included under this heading, generally with a note regarding their significance.

**CHANGES OF TITLE**
Many periodicals changed their titles over the years whether to more-accurately reflect its contents or readership or owing to a change of editor, direction or ownership. Tracing and recording these changes has been one of the major challenges faced whilst creating this Bibliography.

One of the most difficult problems I wrestled with was whether to gather together all of the data regarding an individual periodical in a single location, such as Bacon (5-7) used for the Crawford Catalogue, or fragmenting it under each individual title, as Chester M. Smith (8) did. As a bibliography of periodicals, Bacon’s method has real advantages but the genesis of this work was as a bibliography of Cumulative Indexes and my main objection to Bacon’s method was that the additional thousands of periodicals issued since his day, would mean that anyone starting with a current title would be faced with a cross-reference to find the required cumulative index. With the conversion of this work into a Bibliography of Periodicals, this could well be a decision I come to regret in the future as I try to use the document myself.

The latest or final title of the periodical contains the date covering the whole period of time and issue details for which it was published, irrespective of the variations in title. Where a periodical had a previous title, this is noted as: Formerly … Under each previous title, only the period and issue details for that title are given, together with a note regarding earlier and subsequent titles, the latter being shown as Renamed…. . This approach was taken since my original Bibliography of Cumulative Indexes included details of all cumulative indexes to the periodical, brought together under the latest title and in my view it would seem a bit incongruous if an index covered the period 1920-1950 but the periodical dates were shown as 1940-1950, owing to the earlier titles.

The following terms are used as an explanation of the origin and effect of title changes to avoid writing the explanations in full each time:

**Continued in spirit by …**
A new title which, whilst not directly related to the earlier periodical, continued its mission, policies and often its title.

**Formed by the merger of … with …**
A new title formed by the amalgamation of two periodicals.

The new title may continue the numbering of the most important parent or it might start from Issue 1. Often, the owner and editor of the defunct title were added to the staff of the new periodical and some of its features and columns were incorporated.

**Formerly …**
The previous title of a periodical whose name changed but whose numbering was continued.

**Incorporated …**
Absorbed the periodical named with no change in title or numbering.

Although it could sometimes be the case that a title had been purchased, this generally meant that the subscription and advertiser lists had been turned over so that the new journal could fulfil the incomplete subscriptions and advertising contracts, whilst simultaneously acquiring additional advertisers and a large number of names for its list of subscribers. In theory, the larger subscriber base would make the journal more attractive to advertisers.
Incorporated into ...  
Absorbed by the periodical named, which continued essentially unchanged.

It should be noted that when applied to 19th century American magazines, this usually meant that the periodical into which the defunct publication was incorporated, simply took over the subscription and advertising contracts of the former. In this way, the closing publications were able to rid themselves of these liabilities and the recipients added to their lists of subscribers and advertisers.

Merged with ... to form ...  
Two periodicals amalgamated to form a new title.

Renamed ...  
The periodical's title changed although it continued without a significant break in publication and with continuous numbering.

Reverted to ...  
Reverted to the earlier title given.

Reverted to its original title  
Reverted to the first title it ever had.

Superseded ...  
The earlier periodical, which ceased publication and was replaced.

Superseded by ...  
Ceased publication and was succeeded by the periodical named.
2. CUMULATIVE INDEXES

INTRODUCTION

Much of the material listed here is very difficult to obtain, having been produced by specialised societies as utility documents, only to be discarded once they have been superseded by an index covering additional volumes. Accordingly, many of the documents have been supplied as photocopies from society or private libraries. The data in the entries for photocopied items may not be as reliable as those for which I hold an original copy. In many instances where I have obtained an original to replace a photocopy, I have found that parts of the photocopy were missing. Often, this is just where the person photocopying the document has omitted what are in their view unimportant pages to save me money. Unfortunately, this economic censorship usually just results in my providing inaccurate bibliographic details.

At one stage, I had the intention of specifically marking such photocopies in the text. However, many items were only published in the form of photocopies from a printed or typed master and it is often not possible to distinguish these from unofficial photocopies. More-recently, computer print-outs have become the chosen medium of dissemination and it is often not possible to tell a laser print-out from a good quality photocopy.

BACKGROUND

Unlike the other bibliographies of cumulative indexes, this one is based on my personal and very extensive holdings of both the published and unpublished indexes. Accordingly, most of the data given are first hand in virtually every case and are not derived from other sources, unlike the majority of entries in all previous bibliographies. Those indexes not in my possession are preceded by four asterisks. In such cases, notes may be provided to indicate the status of the index in question, particularly detailing the sources of reference to those indexes whose existence is questionable. In 1999, I published a list of all such indexes, appealing for information as:- Brian J. Birch: Lost and non-existent cumulative indexes., Philatelic Literature Review, 1999, Volume 48, Issue 4, pp.224-234. The response was minimal, with only two or three of the indexes located.

INDEXES ON THE WEB

Nowadays, a great many cumulative indexes to society journals are provided on their respective web sites and are updated regularly, sometimes as each issue is published or on an annual or ad hoc basis. I have taken a copy of each index I have found on the web and listed them herein, particularly noting their origin and the date of my copy. In this way, I provide a snapshot in time of an index without worrying about each update, knowing that users of this document can always (one hopes) look up the latest version from the data I have provided.

These will be found in Section 3.1.4 Indexing.
PREVIOUS BIBLIOGRAPHIES OF CUMULATIVE INDEXES

The first person to publish a list of cumulative indexes was B. T. K. Smith in 1915 in an article covering the whole range of bibliographic resources then available. Apart from Zubatsky, there have been very few other philatelic bibliographies devoted solely to cumulative indexes. The earliest was published in 1949 by Roland King-Farlow, Librarian of the Royal Philatelic Society London from 1946-52. King-Farlow had himself compiled four of the thirty-three indexes he listed - all to major British periodicals. Both of the other bibliographies were by James Negus (in 1961 and 1974), another notable indexer of both philatelic periodicals and books. The other entries in the following list include cumulative indexes as part of a general listing of bibliographic works.

➢ The objective of the paper was to introduce bibliography to philatelists and demonstrate how its use could improve their studies. Having discussed what
bibliography is, the author books at its constituent parts and provides details of the resources currently available to the philatelist under the headings:

- Bibliographies
- Library Catalogues
- Cumulative Indexes to Individual Philatelic Periodicals
- Cumulative Indexes to Groups of Philatelic Periodicals
- Directories and Lists of Current Philatelic Periodicals
- Indexes to Philatelic Articles in Non-Philatelic Periodicals

The article finished with short paragraphs on a variety of related bibliographic topics of particular interest to the bibliophile.

1956

- An attempt to list all important current-awareness, retrospective and cumulative indexes. A few recent bibliographies, mainly published in the Philatelic Literature Review are thrown in for good measure.

* The Philat. Trans. series of translations is produced by the present author to further his researches, particularly relating to bibliographic matters. The translations were originally distributed freely to a number of major national and international philatelic libraries, such as the American Philatelic Research Library; British Library; Collectors Club; National Philatelic Society; Royal Philatelic Society London; &c., from whom they could be borrowed or copies obtained. However, this placed a heavy burden upon me, copying, distributing and recording it all. In 2003, I decided to offer the translations to the Fédération Internationale de Philatélie Literature Commission for their web site. Following their acceptance in early 2004, the index to the translations and all of the completed translations which are available in digital form have been made available on their web site at http://hps.gr/flipitute/.

BIBLIOGRAPHIC CONSIDERATIONS

The following rules have been used to bring some consistency to what is a very large and complicated field:

Order of the Indexes:
Where more than one cumulative index exists to a periodical, the indexes are listed in order of period of coverage, not of their date of publication. Therefore, indexes whose coverage begins with Volume 1 are listed first, then those indexes beginning with Volume 2, etc. Thus, for a particular periodical, five typical indexes would be arranged in the following order:

Volumes 1-2
Volumes 1-15
Volumes 1-20
Volumes 2-3
Volumes 4-12

Coverage:
The extent of the issues of the periodical included in an index is indicated by the range of years and of volumes or whole numbers. No account is taken of part years or part volumes, such variations are usually indicated in the title of the index. Thus, an index which covered the first 5 volumes but only two issues of volume 6 would be shown as Volumes 1-6.

Author:
The authors’ names are given as fully as possible. If no author is given, or only initials, I am sometimes able to ascribe a name and a helpful note as to how I reached this view may be included in brackets. Any information provided by me is enclosed in square brackets:-
Title:
Generally, the title of the index is given verbatim in italics, including foreign language titles, any translations being enclosed in square brackets. Not infrequently, it has been necessary to insert punctuation, to make some titles a little more digestible. On occasion, I have had to create a title, once again given in square brackets, where the original index lacked one. All items are in the language of the country of publication, which is generally reflected in the title, unless otherwise indicated.

Citation:
Bibliographic details are given in as complete a form as possible. For indexes published in periodicals, the title of the periodical is given in full, followed by the Date of issue, Volume number, Issue number & Page numbers (n.pp. means that the pages are not numbered). Where the index has been published in a handbook, catalogue or other non-serial publication, the author and title of the index are given as usual, but followed by “in:” (not in italics) then the bibliographic details of the publication in which the index is to be found.

Separately published indexes include details of the Edition, Publisher, Volume number, Place of publication (n.p. means no place of publication is indicated), Date of publication (n.d. means no date of publication is indicated) & Numbers of pages (n.pp. means that the pages are not numbered). Details of any reprints are given, with particular reference to the format. e.g. Reprinted in booklet (pamphlet, etc.) form.

Accurate and complete bibliographic details have often been very difficult to determine, particularly with the indexes published by societies. Most societies are run by amateurs on a voluntary basis and in many cases this has resulted in poor or even no bibliographic data being given in the publication. It is not unknown for such societies to produce indexes with no author, publisher, date, page numbers or even title. A brave attempt has been made to provide some sort of bibliographic control in these cases.

Many of the indexes were purchased from literature auctions or obtained as photocopies from individuals, societies or philatelic libraries. In some cases, it has been possible to reconstruct the bibliographic data, in many others, it has not. In the latter cases, wherever possible, the sources from which I obtained the indexes are noted.

Details of translations of foreign-language items are given wherever possible.

Notes about the Publication:
Notes about the publication, as opposed to its contents, are given after the reference, generally in curly brackets. {}

References:
In those cases where I have been unable to obtain an index, often after years of trying, published notes which apparently confirm its existence are provided. Articles which include important remarks relating to an index, or significant reviews of it, are given after the index, generally with details of their nature unless it is self-evident from the
Coverage:
The contents of additional or related periodicals are often incorporated into cumulative indexes or are to be found in the same publication. The names of all such periodicals are noted in bold after the main entry, without details of the coverage, which may be found under each periodical’s own entry. Occasionally, it has been necessary to include the place of publication of these periodicals to avoid confusion with other periodicals bearing the same name.

Missing indexes:
Indexes which have not been seen by the author and whose data might therefore be suspect, have their headings prefixed by four asterisks. Such indexes, which are not either non-existent or brand new, are very difficult to locate since considerable time and effort has been expended to obtain them, usually over a large number of years.

Items whose existence is questionable are annotated accordingly. References to them are noted together with any other relevant information.

TYPES OF CUMULATIVE INDEX

Each index is followed by a brief note in brackets regarding its contents, in order to indicate differences between the various indexes, especially those relating to the same periodical. A complete list of the types of index, with brief explanations, follows.

Annual index
An index covering a single year’s issues. The publisher may not consider a year’s issues to be a complete volume. Annual indexes are occasionally included in this bibliography where they have been published remote from the year of publication or as part of a series of indexes, some of which were cumulative.

Author index
A list of the authors in alphabetical order.

Catalogue number index
A list of stamps in catalogue number order.

Classified subject index
The index has been simplified by division into classes. Typical classes are Countries, Society matters, etc. This is only used where the classification is exceptional or unusual.

Combined author and subject index
The index includes authors and subjects in a single alphabetical list.

Compilation of Annual Indexes
A series of annual indexes brought together and offered as a cumulative index.

Contents listed by issue
A contents list for each issue of the periodical, presented in chronological order by
issue. The list may include only important articles and may not therefore be as comprehensive as a true cumulative index. This type of document will normally only be included in those cases where no cumulative index has been published covering the issues in question. Where such listings have been superseded by a proper cumulative index, I have generally not bothered to delete them.

**Geographical index**
Indexed according to countries or geographical areas.

**Perfin index**
An index listing individual perfins only.

**Philatelic contents only**
An index to a non-philatelic or partly-philatelic periodical which includes only those items of interest to philatelists.

**Principal contents noted in narrative form**
Not an index, nor necessarily comprehensive in coverage but generally relating to an early or less well known periodical, not otherwise indexed.

**Stamp issue index**
An index of stamps in order of their date of issue.

**Subject index**
A list of subjects in alphabetical order. Restrictions on the coverage are indicated:-
e.g. Subject index of British North America references.

Specialised subject indexes, where the contents may not be immediately obvious are given a simple annotation:-
e.g. Geographical index; Perfin index; etc.

**Title index**
A list of the titles of the major articles in alphabetical or chronological order.
3. CURRENT-AWARENESS AND RETROSPECTIVE INDEXES

INTRODUCTION

Section 2.2.1.5 of *The Philatelic Bibliophile’s Companion* covers Current-Awareness and Retrospective Indexes and is published as a separate volume. I had originally intended to compile an index to all of the periodicals covered by these indexes at the rear of the volume but soon realised that it involved extensive duplication of the basic data on each periodical contained in the current volume. Accordingly, in November 2008, I transferred the data from the periodicals index to this volume but left the basic document as a free-standing comprehensive and specialised guide to these types of index.

Where a periodical is to be found indexed in one of the entries in the Current-Awareness and Retrospective Indexes volume, this will be noted after the periodical’s bibliographic entry in a section headed *Current-Awareness & Retrospective Indexes*. The reference gives the dates and issues covered by the index (underlined), followed by the Year in which the index was first published and the name under which the index is listed in Section 2.2.1.5. In order to avoid the necessity of cross-referring to the other volume for publication details I have listed the basic data for each index in Appendix 2 of this publication, ordered according to the date of first publication of the index. Only those indexes where the periodical coverage has been included in this volume are listed in full in the Appendix. The other entries simply give the date and name of the compiler or periodical in which it was published.

Coverage is generally given as full years or full Volumes, even if only a few issues have been indexed unless volumes are not used and indexing is carried out by reference to whole numbers, when the exact range is given.
MISCELLANEOUS PUBLICATIONS CONTAINING DATA ABOUT PERIODICALS

The documents listed here are essentially miscellaneous publications containing ad hoc but potentially valuable data, such as unusual or obscure information or short histories, on a number of periodicals. Most, if not all of them, together with bibliographies that simply list periodicals, will also be found in Section 2.2.1.1 of *The Philatelic Bibliophile’s Companion*. Each entry is followed by a brief note regarding its coverage and a list of the titles it includes. I have included titles where the author has no information or about which he requests information, as an indication of what was known, or otherwise, at the time of publication. Each entry below is included in the bibliography under every title it covers.

I have tried to use the author’s name as the heading for each of the entries below as being the most representative for each entry, taking into consideration the need to avoid duplication. Anonymous articles have headings chosen on an individual basis. This has inevitably resulted in a relatively diverse set of headings. The text in each of the references below which in a red font is the same as its heading. The same text is red in each entry in the body of this Bibliography in order to bring to the user’s notice the fact that the entries have been annotated and to lead the user to where the notes may be found.

Where the reference is to a long series of articles in a periodical, only the first reference is given in the Bibliography, followed by *et seq.*, in order to save space. The full reference is given in the list below.

**George A. Joplin:** *Philatelic Literature*, The Daily Stamp Item, 4th February 1896, Volume 1, Issue 30, pp.3-4; et seq. (See below for the full bibliographic details.)

This long series of articles about philatelic literature provides more or less interesting notes on the subject. Following a few words on the use and value of philatelic literature, the author elaborates on collecting philatelic periodicals with many examples of what makes them worth collecting. Most of the articles consist of reviews of extinct periodicals, with opinions as to the merits of collecting them. Accordingly, it has been indexed for all periodicals mentioned. Although the information on each periodical is relatively minor, the entries have been added to the main bibliography.

ABBREVIATIONS

As a matter of principle, I have tried to avoid the use of abbreviations wherever possible. This has been done on two grounds: Firstly, as a one-time professional scientific researcher, I struggled valiantly with a myriad of abbreviations used in references to stand for the titles of periodicals, trying, often in vain, to understand their meaning and thereafter obtain the document referred to. It became evident to me that one man’s obvious abbreviation was another man’s total confusion, and this was in a field which science had attempted to control. Secondly, with modern personal computers having almost unlimited storage capacity and speed, using numerous abbreviations in works such as I produce is, in my opinion, quite unnecessary. It would also seriously waste my time in continuously looking up those abbreviations not yet committed to memory. The surprisingly large number of exceptions to the above rule are listed below.

**Ranks, titles and educational achievements** that appear in front of a subject’s name have been included in the entries wherever possible, in order to help differentiate between individuals of the same name. Abbreviations have been used here in order that long titles don’t overwhelm the name and to differentiate between an honour or rank and the same word used as a name. On the Continent, particularly in Germany, it is normal to prefix a person’s name with abbreviations for all of their educational achievements. This results in extreme cases such as Prof. Dr. Dr. Schmidt, for example – a Doctor with a PhD who is a Professor in a teaching hospital. As an expedient, I have adopted the English system of only recording the person’s superior title, in the above example, Prof. Schmidt.

**Honours or Membership of important societies**, generally denoted in the form of post-nominal initials, i.e. immediately following the subjects names, (such as Sir Ernest Hotson K.C.S.I., O.B.E., F.R.P.S.L.). These are generally only found in formal biographical entries, such as can be found in my volume Philatelic and Postal Bookplates and in material I have quoted. They can be denoted by the appropriate initials, either with or without the full stops, and will be found without the full stops in the Abbreviations list below.

**Philatelic abbreviations** which are in common use, often in the titles of periodicals, and are generally, therefore, self-evident even to non-English speakers; such as FDC, FIP, perf., TPO, wmk., etc. In spite of my considering them obvious, I have included them in the list of abbreviations for the sake of completeness.

**Company designations** which are too long in their extended form to keep repeating. Since these are generally not well-known beyond their home country’s own borders, I have taken the opportunity to add a basic explanation of their meaning.

**Latin terms** such as i.e.; etc.; e.g.; sic; and so forth, which I have found very useful in replacing whole phrases at times.

**Common abbreviations** such as p.; pp.; Dr.; Jr.; etc., which I use to avoid frequent repetition.

**Symbols** can occasionally be useful and these are given in their own list of meanings, preceding the list of abbreviations.

**Names.** Abbreviations or short versions of names are never used in my works but since they may be used by others, they are included in the List of Shortened,
Abbreviated and Pet Names, which can be found in The Philatelic Bibliophile’s Companion.

Shows. I have not provided explanations of the initials and acronyms used for stamp shows and exhibitions.

The other category of abbreviation that I have used widely is the United States Postal Service codes for the American States. In order not to make this present list of abbreviations overly long and difficult to use, I have appended these State abbreviations in their own list following the main list of abbreviations. Similarly, Canadian Territories’ and Australian States’ abbreviations have been added as stand-alone lists.

As I began to add special features in my works, like document indexes in The Philatelic Bibliophile’s Companion, and material quoted from others, such as the Bierman biographical material from the web in Biographies of Philatelists and Dealers, I found that they used additional abbreviations that I was forced to include in my list. Although I occasionally reverted rarer abbreviations back to their full text to avoid having to include an abbreviation for a single use, this undoubtedly led me away from the basic tenants to which I was attempting to adhere. Nevertheless, and in spite of this substantial list of abbreviations, I have tried hard to minimise the number of abbreviations I use regularly.

Occasionally, I have felt the need to explain terms, particularly for users whose mother tongue is not English, which, although not abbreviations, have no other obvious place of refuge in this work. I have therefore used the abbreviation list to explain the English Sir, Latin ergo and German Graf, for example.

In order to prevent myself from using different abbreviations for the same word and to ensure consistency between my different works, I have used the same list of abbreviations in all of them, irrespective of whether any specific abbreviation is used therein.

---

*1 To those who would like to look into the problem of abbreviations further, I would recommend your reading James Negus: Philatelic Literature., James Bendon, Limassol, Cyprus, 1991, pp.1-13; and particularly pp.49-51 & 207-208.

*2 Although these are not really within the purview of this Section, I have come across a list of French philatelic abbreviations that warrants a place in this work. Accordingly, I have noted it below:

➢ A concise list of abbreviations which are to be found in the French philatelic literature. Each entry is accompanied by the French equivalent and English translation.

LIST OF SYMBOLS

... Used in material that is being quoted, to indicate that there was additional text which it has not been
considered necessary to include.

&c. \& etcetera. Used in English as a way of indicating that other similar items could have been included.

\sim\text{Approximately} or, when followed by a date, \textit{About}.

\text{A$} \quad \text{Australian Dollar}. Alternatively, it can be designated by the international code \textit{AUD}.

\text{C$} \quad \text{Canadian Dollar}. Alternatively, it can be designated by the international code \textit{CAD}.

\text{c/o} \quad \text{Care of. (or in the care of)} Used where someone is authorised to stand in for a person or organisation and receive material (such as mail or goods) on their behalf. Before the advent of word processors with their superscript and subscript capability, it was frequently found as c/o.

\text{*Date} \quad \text{Date of birth}.

\text{†Date} \quad \text{Date of death}.

\$ \quad \text{Dollar}. The currency used in the United States of America. Alternatively, it can be designated by \textit{US$} or the international code \textit{USD}.

\text{Many other countries use their own dollar as their unit of currency, the value of which may differ greatly from that of the US dollar. In print, except in their own country, the dollar symbol is usually preceded by a country code (see \text{A$} and \text{C$} above).}

\equiv \quad \text{Equivalent}. This is the international scientific symbol used to indicate that two items are interchangeable with each other.

\text{"} \quad \text{inch or inches}. The shortest imperial measure of length.

I never use this abbreviation but have noticed it in some of the material I have quoted.

\text{N}^\circ \quad \text{Number}. It is followed immediately by the numeral, without a space between them. It should not be used as a general abbreviation for the word \text{number} within text. It is often substituted by \textit{No.}, particularly before the advent of computers with their superscript facility.

\text{Nos} \quad \text{Numbers}. It is followed immediately by the numeral range, without a space between them. It should not be used as a general abbreviation for the word \textit{numbers} within text. It is often substituted by \textit{Nos.}, particularly before the advent of computers with their superscript facility.

\# \quad \text{Number(s)}. This is an American abbreviation.

In general, I do not use this abbreviation but have noticed it in some of the material I have quoted. However, I have used it in the table of auction named sale pseudonyms, where I included sale numbers as an afterthought and space was at a premium.

\text{£} \quad \text{Pound sterling}. The currency currently used in the...
United Kingdom and in certain dependencies and colonies over the years.

® Registered Trade Mark. This is an international symbol indicating that the word to which it is attached as a superscript suffix, has been officially recorded as denoting a specific product or entity.

/- Shilling(s). This symbol, preceded by a number, was formerly used throughout the Sterling currency area prior to decimalisation. The dash indicates no pence and is replaced by the appropriate number (not followed by the abbreviation d) when the amount includes pence. For example 2/6 means 2 shillings and 6 pence and could be equally shown as 2s 6d.

Note: Common currencies which are designated by letters alone will be found in the list of abbreviations.

**Compagnie.** This is French for **Company.** The same abbreviation is used following the names of Dutch companies, with presumably the same meaning.

**Cllr.**

**Councillor.** This is the English name for a member of a legislative body (or council) that governs a city or municipality.

**Co.**

**Company.**

**Col.**

**Colonel.**

**Com.**

**Commodore.**

**Crawford Catalogue**

{Volume VII, complete with the Supplement and Addenda, was reprinted as: [E. D. Bacon]:
penny (or pence). Used in the Sterling currency area as an abbreviation for the penny or its plural, pence, prior to the conversion of the currency to the decimal system. It may be found with or without the full stop. Following decimalisation, the abbreviation for the penny was changed to p.

Don. This is a Spanish courtesy title given to gentlemen and members of the nobility. Although its use is not common nowadays, it can still be found in older publications.

Doctor of Letters. See under Litt.D.

Doña. This is a Spanish courtesy title given to ladies and female members of the nobility. Although its use is not common nowadays, it can still be found in older and very formal publications.

Distinguished Flying Cross. A British military medal awarded for exemplary gallantry during active operations against the enemy in the air.

Deutschmark(s). The currency which pre-dated the Euro in Germany.

Doctor. This is really a colloquial or familiar shortening of the title rather than a formal abbreviation.

Doctor of Engineering. See the explanation under Ing. This is often used in Europe as a title.

Digital Versatile Disc but can often be found called a Digital Video Disc. A new type of CD that holds a minimum of 4.7 gigabytes and was developed with enough capacity to hold a full-length film. A pre-recorded DVD is more-correctly called a DVD-ROM (-Read only memory).
e.g. exempli gratia. This is a Latin expression meaning *for the sake of example.*

e.K. Eigenkapital. This is German for *self-financed* and indicates that it is a one-man business.

Eng. Engineer.
Eng.-Capt. Engineer Captain.

ergo The Latin term for *therefore.* It is widely used in English to demonstrate a link between two things or events and replaces words and phrases like *hence,* *consequently,* *accordingly,* *for that reason,* etc. Although it is not an abbreviation, it is included here for convenience.

et al. et alia. This is a Latin expression meaning *and the others.* Naturally, the Latin expression would change in accordance with the gender of the others in question: *et alia* for neutral, *et alii* for masculine and *et aliae* for feminine things, all of which use the same abbreviation.

et seq. et sequentes. This is a Latin expression meaning *and the following.* It is used to shorten references covering numerous sequential issues of a periodical.

etc. etcetera. This is a Latin term meaning *and so on or and so forth.*

F Franc(s). The currency which pre-dated the Euro in France.

f. folio. This is a Latin term meaning *on the (next) page.* In use, *f.* has no space between it and the preceding number. See also *ff.*

Fa. Firma. This is a German term meaning *Firm* or *Company.* It is generally used immediately before the name of the company.

FDC First Day Cover.

fecit Created or executed. It is used after the name of the artist or craftsman who produced the work of art or piece of craftsmanship.

ff. folio. This is a Latin term meaning *on the (next) page.* It is used to refer to the next page or pages in a citation and as such is a synonym of *et seq.* However, its usage has been extended to include next sections, next paragraphs, etc. and even subsequent issues of a periodical run. In use, *ff.* has no space between it and the preceding number. *f.* is generally used to indicate a single page, etc. or issue.
I never use either of these abbreviations but have noticed them in some of the material I have quoted and translated.

**FIP**

**Fédération Internationale de Philatélie.** This is the French name by which the *International Federation of Philately* is generally known.

**Fleet-Surg.**

**Fleet-Surgeon.** A senior medical rank in the British Navy from 1875 to 1918.

**FLS**

**Fellow of the Linnean Society.** Founded in 1788 and taking its name from the Swedish naturalist *Carolus Linnaeus*, it is the world's premier society for the study and dissemination of taxonomy and natural history. Important scientists who are granted the honour of Fellowship are allowed to use the letters FLS after their name.

**Flt.-Lt.**

**Flight Lieutenant.**

**Fr.**

**Father.** This is a familiar way of referring to some ordained clergy. The German equivalent is Pfarrer.

**“Franks”**

**Frhr.**

**Freiherr.** This is a German title roughly equivalent to the English Baron. Before 1919 it preceded the name and is abbreviated in this document. After 1919, it tended to be placed within the name, immediately before the family name. In those cases, it is considered part of the name and given in full.

**FRS**

**Fellow of the Royal Society.** Founded in 1660, the *Royal Society of London for Improving Natural Knowledge*, known simply as the *Royal Society*, is probably the oldest scientific society in the world. Important scientists who are granted the honour of Fellowship are allowed to use the letters FRS after their name.

**ft.**

**foot** or **feet.** An imperial measure equal to 12 inches or 305mm.

**FZS**

**Fellow of the Zoological Society of London.** Founded in 1826 to house a zoological collection and be devoted to the worldwide conservation of animals and their habitats, it is responsible for London Zoo and Whipsnade Zoo. Important scientists who are granted the honour of Fellowship are allowed to use the letters FRS after their name.
GCIE  Knight Grand Commander of the Indian Empire. This was the highest class of The Most Eminent Order of the Indian Empire, which was created in 1877 to reward British and native officials who served with distinction in India.

GCSI  Knight Grand Commander of the Star of India. This was the highest class of The Most Exalted Order of the Star of India, which was founded in 1861 to honour Indian Princes and Chiefs, as well as British officers who had served with distinction in India.

Gen.  General.

GM  George Medal. A British honour awarded to civilians for acts of great bravery. It is also awarded to military personnel where military honours would not normally be granted, such as acts of great bravery not in presence of the enemy.

GmbH  Gesellschaft mit beschränkter Haftung. This is the German equivalent of Limited Liability Company. Such companies are incorporated, but their shares are not publicly traded.

GmbH & Co. KG  This is an organisation like a KG, but the entity with unlimited liability is a GmbH instead of a person. (See also KG)

GPO  General Post Office. The original name for the British Post Office.

Gr. Capt.  Group Captain.

Graf  A German title of nobility, equivalent to Earl in English. Today, it is considered to be part of the person’s name.

H  His Majesty’s or Her Majesty’s. Prefix used by many British Government organisations whose activities are carried out in the name of the Monarch.

Hnos.  Hermanos. Spanish abbreviation for Brothers. Generally found in the names of firms and equivalent to the English Bros.

Hptm.  Hauptmann. A German word usually translated as Captain when it is used as an officer’s rank in the German, Austrian and Swiss armies. It also has the dated meaning of Head man.

i.e.  id est. This is Latin expression meaning that is or in other words.
ibid. ibidem. This is a Latin term meaning *in the same place*. It is used in references to refer to the last work cited, to save re-typing the same details again.

illus illustration. Used in brackets by the author (BJB) when producing indexes, to indicate that the reference is to a person or periodical in an illustration.

imperf. imperforate. Any stamp which is found without perforations or any other means to facilitate its separation from the printed sheet. I do not use this abbreviation but have noticed it in some of the material I have quoted.

Inc. Incorporated. This is the American equivalent of *Limited Liability Company*.

infra Latin for *below*. It is generally used in text to call readers’ attention to something that follows in the text. Sometimes preceded by *vide* “see”. This is not a term that I use but I have noted it used by others, whose work I have quoted.

Ing. This is the general abbreviation for professional engineer in Continental Europe. It derives from the term for engineer in the appropriate language, e.g. *Ingénieur* (France) or *Ingenieur* (Germany). This abbreviation is widely used in Europe as a title. It is often preceded by an indication of the level attained, such as Dipl. or Dr., which I have tended to leave out in order to avoid confusion.

J Jhr. Jonkheer. (Belgium and Netherlands) It is an honorific title used nowadays to indicate that someone does belong to the nobility, but does not possess a title.

Jr. Junior. Used to differentiate between a son and father who both carry the same names. There is normally a comma between the family name and Jr. I have chosen to miss this out in all cases in order not to cause confusion with the comma used after the family name when the family name provides the alphabetical order.

K Kanonikus. From the Latin Canonicus, meaning an ecclesiastical person, being a member of a chapter or body of clerics living according to rule.

KCB Knight Commander of the Bath. This is the fourth highest British order of Chivalry and is usually awarded to senior Military Officers and Civil
Servants for services rendered to the Country.

KCSI **Knight Commander of the Order of the Star of India.** This is the senior order of chivalry associated with the Empire of India and was given for conspicuous service in India.

KCVO **Knight Commander of the Royal Victorian Order.** This is the second highest class of the *Royal Victorian Order*, membership of which is conferred on those who have performed personal service for the sovereign.

KG **Kommanditgesellschaft.** This is a German expression meaning a *partnership under a legal name*. There must be two partners, at least one of limited liability and at least one of unlimited liability.

Kgl. Hoheit **Königliche Hoheit.** This is a German expression meaning *Royal Highness*.

**L**

Litt.D. **Doctor of Letters.** This is a university academic degree above the Doctor of Philosophy (Ph.D.) and is awarded in a number of countries, particularly former British Colonies. The abbreviation is derived from the Latin *Litterarum doctor* and can also be denoted by *D.Litt.* The degree is awarded to candidates whose record of published work and research shows long, conspicuous ability and originality which constitutes a distinguished and sustained achievement.

Litt. dim. **Letters dimissory.** A document granted by a bishop to an individual, born or resident in his diocese, to enable him to be ordained by another bishop, the granting bishop having already established that the individual was sufficiently qualified to be ordained.

Letters dimissory are also used to provide a testimonial by the bishop on behalf of a clergyman who was leaving his diocese to seek employment elsewhere.

This is not an abbreviation that I use but I have noted it used by others, whose work I have quoted.

LLC **Limited Liability Company.** A type of American company. In the United States, Corporations typically pay taxes, then distribute the profits via dividends, on which the recipients must also pay taxes. An LLC allows for *pass through taxation*, which means that the profit a company makes goes directly to the owners on their tax forms, even if the profits were not actually distributed. Therefore, the profits are only taxed once.

| Nachf.       | Nachfolger  | German for Successor. This term is used at the end of company names to indicate that the
present company has succeeded the previous company of the same name.

nee

This is the English equivalent of the French *née*, meaning a woman’s previous or family name before marriage. Also known as her maiden name. The French version with an accent, is sometimes found used incorrectly in English writings I have quoted.

Nº or No.

Abbreviation for Number when followed immediately by the numeral, without a space between them. It should not be used as a general abbreviation for the word number in text. No. was generally used before the advent of computers with their superscript facility.

Nºs or Nos.

Abbreviation for Numbers when followed immediately by the numeral range, without a space between them. It should not be used as a general abbreviation for the word numbers in text. Nos. was generally used before the advent of computers with their superscript facility.

OBE

Officer of the Order of the British Empire. This is an order of chivalry to recognise those who made a significant and valuable contribution to the British Nation.

Oblt.

Oberleutnant. A German military rank used by all three of the country’s services. It is translated as Senior Lieutenant and is roughly equivalent to First Lieutenant in the British Army.

OCR

Optical character recognition. Software that allows scanned images of printed text to be recognised and made available in word processing software so that it can be edited on computer.

op. cit.

opus citatum. This is a Latin expression meaning that the work has been cited and thus the reader can find the full citation elsewhere. It is used to avoid providing a complete citation of a work in several places. It is normally found following the name of the author whose work is being cited. This is not a term that I use but I have noted it used by others, whose work I have quoted.

OSS

Office of Strategic Services. This was a United States intelligence agency formed during World War II to coordinate espionage activities behind enemy lines for the United States Armed Forces. It was a predecessor of the Central Intelligence Agency (CIA).

Oy

Osakeyhtiö. This is Finnish equivalent of Limited Company.

OYJ

Julkinen osakeyhtiö. This is used in Finland to denote a
publicly traded company with the owners having limited liability. It is equivalent to the UK’s plc.

P

page number, if followed by a number.

or

page, if preceded by the number 1.

P.O. or P. O.

Post Office. This abbreviation is primarily found in addresses involving a Post Office Box.

pdf

portable document format. It was developed by Adobe Systems to make it possible to send formatted documents and have them appear on the recipient’s computer as they were intended. In order to view a pdf file (i.e. with the extension .pdf), one needs Adobe Reader, a free application distributed by Adobe Systems.

per se

This is not an abbreviation. It is a Latin phrase meaning in itself.

perf.

perforated. Any stamp which is found with perforations to facilitate its separation from the printed sheet. I do not use this abbreviation but have noticed it in some of the material I have quoted.

photo

photograph. Used in brackets by the author (BJB) when producing indexes, to indicate that the reference is to a photograph containing a picture of the person named.

plc

Public limited company. This is used in the UK to denote a publicly traded company with the owners having limited liability. A plc must have at least £50,000 in authorized capital. It is also used in Eire and some other countries.

President of the Society of Antiquaries. Presidents are allowed to use these post-nominal letters during their term of office. Former Presidents are accorded the post-nominal letters Hon.-VPSA (Honorary Vice-President).

pt.

point. The usual unit for measuring font size on a printed page. Nowadays, the traditional point has been supplanted by the desktop publishing point (also called the PostScript point) which was rounded to 72 points to the inch (= 0.3527 mm). In either system, there are 12 points to the pica.

The general text in my works is 12 pt., with headings in 16 pt. or 14 pt. I also use 10 pt. occasionally and 8 pt. for the reverse of the title page, when there is insufficient space to use any other font size and still have all of the text on a single page. (BJB)
Sixteen point: 16 pt.: **Boldface**
Fourteen point: 14 pt.: **Boldface**
Twelve point: 12 pt.: **Boldface**
Ten point: 10 pt.: **Boldface**
Eight point: 8 pt.: **Boldface**

**Pte.** Private. This is used in Singapore to designate a *Private Company*, i.e. the shares are held by an individual or small group and are not listed on a stock exchange.

**Pty.** Proprietary. This is used in Australia, Singapore and South Africa is the equivalent of *Limited Company*.

**q.v.** *quid videt*. This is a Latin expression meaning *which see*. It is used to indicate that more information can be found under the heading that precedes the abbreviation.

**R**
- **R. Adm.** Rear Admiral.
- **RAAF** Royal Australian Air Force.
- **RAF** Royal Air Force.
- **Raj.** Rajah. A title conferred on a chief or ruler in India and the East Indies.
- **Rev.** Reverend.
- **RN** Royal Navy. This abbreviation is used after a person’s name, generally to indicate the relevant branch of the services, where their rank is common to two or more of the services. For Example, the rank of Captain is common to the Army, Navy and Merchant Marine.
- **RPSL** Royal Philatelic Society London. For many years the Society’s name was shown as *Royal Philatelic Society, London* but the comma was dropped recently.
- **Rt. Hon.** Right Honourable. An honorific prefix that is traditionally applied to certain people in the United Kingdom and many other English-speaking former colonies, generally senior politicians and some nobles.

**S**
- **S.** shilling(s). Used prior to decimalisation, with or without the full stop, in the Sterling currency area as an abbreviation for the shilling. Shillings could also be denoted by adding the symbol /- (or incorrectly /=) after the number of shillings. See the example under Symbols above.
SA  Societe Anónima. This is the Portuguese and Mexican equivalent to Limited Liability Company.

SA  Société Anonyme. This is the Belgian equivalent to Limited Liability Company.

   This abbreviation is also used in Switzerland, presumably with the same meaning

Sen.  Senator. A politician who is a member of the Senate.

   Widely used as a title, especially in the United States of America.

sic  sicut. This is a Latin term meaning thus or just as that.

   In writing, it is placed within square brackets and usually italicized [sic] to indicate that an incorrect or unusual spelling, phrase, punctuation, or other preceding quoted material, has been reproduced verbatim from the original and is not a transcription error.

Sir   A title of respect used before the name of knight or baronet

Squad. Ldr.  Squadron Leader.

Sr.  Senior. Used to differentiate between a son and father who both carry the same names. There is often a comma between the family name and Sr. I have chosen to miss this out in all cases in order not to cause confusion with the comma used after the family name, when the family name provides the alphabetical order.

srl  Società a Responsabilità Limitata. This is the Italian equivalent of Limited Liability Company.

Sub.-Lt.  Sub.-Lieutenant.

 supra  Latin for above. It is generally used in text to call readers’ attention to something mentioned previously in the text. Sometimes preceded by vide “see”. This is not a term that I use but I have noted it used by others, whose work I have quoted.

Surg.-Capt.  Surgeon-Captain.

T  Travelling Post Office.

U  Universal Serial Bus. A standard cable connection interface port on personal computers and similar electronic devices. USB ports allow stand-alone
electronic devices to be connected via cables to a computer (or to each other) and can also supply electric power through the cable to devices without their own power source.

**V**

- **V.-Adm.** Vice-Admiral.
- **V.-Rev.** Very Reverend. A title of respect for various ecclesiastical officials.
- **VAT** Value Added Tax.
- **Vete.** Viscount (English) or Vicomte. (French).
- **Ve or Vve** Veuve. French for widow. It is found in the names of firms where the widow has continued the business of her late husband. The Berger-Levrault publishing company of Strasbourg being the relevant example in philately. These abbreviations are sometimes found as Vé and Vve respectively.

**W**

- **W.-Cdr.** Wing-Commander.
- **wmk.** Watermark. A faint design impressed in some paper during manufacture, that is visible when held against the light. It was originally intended to identify the paper maker but in stamps was a security measure.
- **WO** Warrant Officer. A military rank between a non-commissioned officer and a commissioned officer.

BIBLIOGRAPHY OF PERIODICALS

Where the Checked: data are followed by the word Continuing, it means that I subscribe to the magazine or receive each issue going forward.

In many entries, the dates and issues are uncertain and are followed by (Creeke). These data are taken from notes made by Anthony B. Creeke Jr., when he was compiling his index to all English-Language periodicals to 1929. He produced ad hoc lists of all relevant periodicals published after the Crawford Catalogue, to which he needed to gain access and index. Data from this source may well be accurate but should be treated with caution.

Arbeitsgemeinschaft
This term or its abbreviation ARGE (or ArGe), is the German for Working Group and is equivalent to the British Study Group and is widely used as a prefix to the names of a great many German-language specialised societies. In order to avoid confusion and a very large number of entries under this title, it is omitted from society names which are used as a prefix for Berichte; Mitteilungen; Rundbriefe; etc. Periodicals with a proper title beginning Arbeitsgemeinschaft der ... Berichte etc., will be found under the actual titles, with a cross-index under the society’s name.

Austria Philatelic Society Bulletin
Austria Philatelic Society of New York, NY, USA.
1948- In progress.

- The control of the title of this periodical has been extremely poor.
- Issues up to and including September 1949 carried no title, nor did those of December 1949 and January 1950.
- The issues of October and November 1949, February and April 1950, were titled Austria Philatelic Society of New York Monthly Bulletin.
- From the issue of September 1950 to that of April 1952 the title was Bulletin of the Austria Philatelic Society.
- In March, May and June of 1952 and thereafter, the title has been simply Bulletin, although it has sometimes appeared to have been rendered as Austria Philatelic Society Bulletin by the layout used.

Belgian Study Circle – News Letter
Belgian Study Circle, UK.
1947-74; Whole number 1 to Whole number 129.
- Formerly the *Belgian Stamp Study Circle – News Letter.*
Although it adopted volume numbering with Volume 2, Issue 1 being Whole number 51, with each volume to be 10 issues henceforth, whole numbers are in more general use.

Whole numbers 61 to 99 carried an illustrated mast head and the title *BSC News Letter*, thereafter reverting to its previous title and format. During this period, occasional issues (Whole numbers 67, 73 & 84) did not have the illustrated mast head and revised title.

With whole number 100, the title changed to *Newsletter*, reverting to *News Letter* with whole number 109 with the occasional return to *Newsletter*.

Superseded by *Belgapost*.

**Bericht(e)**
This term is the German equivalent to the English *Proceedings or Report* and is commonly used alone as the name of their periodical by many German-speaking societies. To avoid confusion, and a large number of entries under this title, such periodicals are listed under the society’s name. Periodicals with a proper title incorporating *Bericht* at the beginning, such as *Bericht(e) der ...* or *Bericht(e) für ...* will be found under the actual titles, with a cross-index under the society’s name if thought necessary.

Northwest Philatelic Library, Portland, OR, USA.  
2004- In progress.

- Early unnumbered issues of *Book Reports* were published as a section of *The Album Page* from December 2003 or January 2004.
- All numbered issues were published as part of *The Album Page* with their own page numbering except for Volume 1, Issues 4, 5 & 6 which continued the pagination of *The Album Page*.
- The first volume had only 11 numbers.
- The November 2004 number was shown as Volume 2, Issue 5 instead of Volume 1, Issue 5.
- The July 2007 number was incorrectly shown as 2006.
- The January 2009 issue was numbered Volume 5, Issue 7 instead of Volume 5, Issue 8.
- Volume 7 had six numbers, the last one covering both November and December. This was to allow the next volume to begin in January 2011.
- In 2010, the Oregon Stamp Society decided that it could no longer pay for the printing of *Book Reports*. The issue for August (Volume 7, Issue 3), was available in both hard and digital copy form, the latter being found on the Library’s web site. The digital version omitted the first page which provided an explanation of the position regarding the publication.
- The issue for September 2010 was available both as a black and white printed copy and a digital copy in colour.
- The final printed copy was that for October 2010, Volume 7, Issue 5. Thereafter, the publication was distributed in digital form only.

In the 1990s, **Douglas Myall** maintained a cumulative index on his computer for his own use. It was created in Corel Ventura and could only be read by those with this program. On request, he would convert this to ASCII and provide a copy on 3½ inch floppy discs sent in for the purpose. Unfortunately, one of the discs sent to him was infected with a virus which caused him great problems at the time and so he gave up that practice. Notwithstanding this ban, I have two floppies provided by **Doug** containing indexes in both ASCII and Word® format.

The Great Britain Group of the Postal History Society, UK.
1974-81; Issues 1-29.

- It was originally intended that The British Mailcoach contained the articles on British postal history whilst the parent magazine, Postal History, contained mainly articles on foreign postal history with a small amount of British material.
- The scarcity of foreign articles, coupled with the recession of the early 1980s, lead to its incorporation into its parent magazine in 1981.

British Philatelic Bulletin
General Post Office, London, UK.
1963- In progress.
- Formerly The Philatelic Bulletin.
- Over the years, the General Post Office (G.P.O.) was renamed the British Post Office, The Post Office, Consignia and is now known as Royal Mail.
- Although the General Post Office produced an index to volume 1, none was produced for volume 2. Thereafter, combined indexes were produced after every second volume.
- When Eva Parsons reprinted these volumes 1 & 2 in 1983 as a single book, she included the General Post Office index to volume 1, at pages 2 to 5, and added her own index to volume 2 at page 6.
- The practise of compiling indexes covering two volumes ceased when Douglas Muir became editor and instituted annual indexes at the conclusion of each volume, beginning with Volume 23.
- Many issues included a supplement which described forthcoming new stamp issues,
initially titled *In-Phil* and subsequently *Stamp Preview*.

- Chiu was a stamp and postal history dealer. 
- Every issue of the hand-crafted, mimeographed journal was stapled inside a decorative cover, often made from floral wallpaper. Illustrations were real photographs or actual stamps. 
- Each monthly part was called a Chapter rather than an Issue. In Volumes 1 and 2, each Chapter was paginated separately. From Volume 3, Chapter 1 (July 1954) continuous page numbering was used. 
- An undetected error of page numbering was made in Volume 9, Chapter 2 (August 1960), where p.385 was followed by p.286, causing 100 page numbers to be repeated.

➢ The numbering system broke down in 1987 and 1988 and for a couple of issues thereafter. Several issues carried the incorrect volume number, whole number or had no whole number at all. When whole numbers were resumed with issue seventeen of
February 1989, one issue had been missed and therefore, all whole numbers were one too low. When the error was discovered, the extra issue of August 1988 was given the number 15a in order not to disturb the current numbering system. **Dominican Republic Study Group - [Bulletin]**

Dominican Republic Study Group (Lt. Col. James W. Smith), Norman, OK, USA.

1979-84; Volume 1 to Volume 5, Issue 1. (Whole number 17.)

- The magazine was called *Bulletin* in the editorial in the first issue but no title ever appeared on the masthead.
- Volume 1 and 3 had four issues; Volume 2 had 5 issues; Volume 4 had three issues and Volume 5 had one issue.
- The *Study Group* was always very small, about 20 members or so and the magazine was produced by Smith in order to share his knowledge.
- In 1984, he decided to stop publishing the magazine owing to a lack of interest within the membership.
- The magazine was superseded by short articles that he sent from time to time to those who paid a deposit of $10-20. The following issues are known:
  - June 1984 14pp. (Includes a letter to Baron Suero Cedena, 6pp.)
  - 16th July 1984 19pp.

Doughty and Page’s Philatelic Literaturist
Doughty and Page, Muscatine, IA, USA.
1896-98; Issue 1 to Issue 10.
➢ The first issue carried the title Doughty and Page’s First Auction Sale of Philatelic Literature and was obviously an auction catalogue. It was converted into a periodical, presumably to take advantage of second class postage rates. However, this ploy would appear to have failed and following issue five, it reverted to simply being an auction catalogue for the final five issues.
➢ The date of the seventh sale was altered from the 17th November 1897 to the 30th.
➢ Devoted to philatelic literature.

Succeeded Munkas Bélyeggyüjtő.

The early issues carried dual numbering, one from Volume 1, Issue 1 and the other continuing the numbering of it predecessor. I do not know which numbering system was dropped but presume it was that of its predecessor.

At some stage, it appears to have had Bélyegvillág added in front of the title. However, with my poor command of the Hungarian language, I am not sure whether this was an integral part of the title or not.

Forschungsgemeinschaft
This term or its abbreviation FG (or ForGe), is the German for Research Association and is equivalent to the British Study Group and is widely used as a prefix to the names of a great many German-language specialised societies. To avoid confusion, and a large number of entries under this title alone, such periodicals are listed under the society’s name. Periodicals with a proper title incorporating Forschungsgemeinschaft at the beginning, such as Forschungsgemeinschaft ... Rundbrief will be found under the actual titles.

- All of the issues to number 7 were dated and numbered. The following issue, number 8 for April 1967, has no number or date and subsequent issues carry a date only, often without the year.
- Although these were mainly price lists, each issue carried a one or two page report on the state of the Great Britain market.
- The issue dated 24th October 1967 includes a note that it was the last of the present series and that a New Series would be published in mid-November.
- Superseded by a new series under the same title.

➤ At the end of 1987, the Editor, Robert A. Greenwald, was stripped of the editorship by the then President of the Club, who then took over the editor’s job. Although he improved the look of the journal with the use of expensive desk-top publishing software, the content deteriorated and the last-known issue was dated March 1992.

This index was produced in 1961 as a typescript only, to be circulated to members requesting to see a copy. It was said to have been accepted for publication by the Philatelic Literature Review but does not seem to have been published. (Index to the Bulletin, Meter Stamp Bulletin, June 1961, Volume 6, Issue 8, p.78.) Interestingly, it is listed as an unpublished manuscript in James Negus: Cumulative indexes to single periodical publications (in English), Philatelic Literature Review, November 1961, Volume 10, Issue 3, pp.24-26. There was no copy in his collection of cumulative indexes (which I purchased) or in his archives which he donated to me upon his retirement. An enquiry addressed to the American Philatelic
Research Library in 2011 elicited a reply from Neil Coker that they could not find a copy in their holdings.

**Notes and Queries**
John C. Francis, London, UK.
1849-19?

- This was a non-philatelic magazine in which subscribers could ask questions upon any subject and hopefully receive answers. It interest to philatelists is in the questions and answers relating to early philately. In addition, Peter John Anderson, an important early Scottish stamp collector and bibliophile placed some key articles on early bibliography therein.

- Every few years, the publishers began a New Series. There were 10 series up to 1907, after which the queries on philately were of little interest.

- Most of the important early references to stamp collecting have been reprinted in philatelic magazines.

O. K. Stamp News
Willard Van Orman Quine & Jack Chamberlain, Akron, OH, USA.
1924-25; Volume 1, Issue 1 to Issue 7.

- There were three versions printed by Chamberlain of the first issue. The first two, dated September 1924 and titled O K Stamp News, were not accepted by Quine because their headlines were Our Debutante and Our Debute, respectively. The third attempt was dated October 1924, carried the correct title and was headed Debut. Although the first two versions may not have been circulated, they are illustrated on the cover of the Philatelic Literature Review of 3rd Quarter 2008. Chamberlain was not involved in the subsequent issues.

- When the title was discontinued in about June 1925, the subscriptions and advertising commitments were taken over by Sanguinet's Stamp Saver.

1983- In progress.

▶ It was published annually for the first three years but then became an occasional publication, produced whenever sufficient material was available.

▶ A book of abstracts and an index to the first five issues was produced in 1990: *Opinions I-V: The Complete Abstracts and Index.* A copy of *Definition of Terms* (August 1988, [8]pp.) produced by the Expert Committee of the Philatelic Foundation is tipped into the back of the book. A bookplate explaining one of the idiosyncrasies of the book was also included. (The publications were listed as I-V in the Abstracts but A-E in the Index!)

▶ The publication went into abeyance in 1992 and was resurrected in time for the
American international exhibition, Washington 2006. The principal funding for this revival was provided by Joseph D. Hackney.

They are available both hard bound and soft bound format. The first issue had a dust jacket.

➢ Issues 5 and 6 of volume 3 have the date 1890 instead of 1891.
➢ W. W. Jewett became the joint publisher with issue 1 of volume 3 and purchased the title outright in 1891, with volume four, issue 5.
➢ Jewett purchased The Rhode Island Philatelist and incorporated it with the issue for September 1891.
➢ Volume 4, issue 5 has a two page supplement.
➢ From September 1892 to August 1893, it published The Philatelic Literary Review as a free monthly supplement, although it was paginated with the parent magazine. Thereafter, it was incorporated into the magazine.
➢ Following a complaint by Jim the Penman in Our London letter (Philatelic Era, October 1892, Volume 6, Issue 2, p.52.) regarding the difficulty in obtaining the
magazine in the UK. The publisher made an arrangement with the International Press Agency of London to distribute it in the UK. Accordingly, a London Edition was published starting with the issue for November 1892. Such copies carry the words *London Edition* at the top of the cover. It is not known whether such copies differed from the regular edition.

- Commencing with the first issue of volume 7, it was published fortnightly.
- After the last issue of volume 12, it changed to a weekly publication and was renamed *The Weekly Philatelic Era*.

➢ Only three numbers have been seen: 1st August 1922; 24th March 1923 and 1st May 1923. There may have been additional issues.
➢ In spite of the fact that there was at least one trade only magazine at the time, there seems to have been some controversy amongst dealers about wholesalers advertising in magazines read by collectors. This magazine was published in an attempt to address this problem by providing a relatively low-cost medium available to dealers only.
➢ Although it was called a Supplement, it was sent free to members of the Trade only and had no other connection with the Philatelic Magazine other than emanating from the same publisher.

Philatelic Paraphernalia
Victor Short (for the Philatelic History Society), Ashwell, UK. 1984-92; Volume 1 to Volume 2, Issue 4. (Whole number 29.)
➢ The periodical started with an abortive (trial?) issue with a yellow cover but no date or number. This issue was never circulated.
➢ The first regular issue had a white cover with no indication of its number or date but was actually issued in October 1988.
➢ Numerous souvenirs were given with almost every issue on an ad hoc basis – see the table below.
➢ After issue 25 there was a six month hiatus in publication and so, thinking that there were to be no more issues, an index was prepared by James Negus, covering the first twenty-five issues. This lead the publisher to call those issues Volume 1 so that Whole number 26 is also shown as Volume 2, Issue 1. With the cessation of publication shortly thereafter, Negus produced an index for the last four issues in the same format, for completeness. This latter index was given to Victor Short who reproduced it, but it was never formally circulated. It was however included in Negus’ CD of Unpublished Works.
➢ Publication was discontinued owing to a lack of time by the publisher who was a self-employed accountant.

The publication history of *Postal Stationery* magazine was nicely outlined in the United Postal Stationery Society Membership Directory for the year 1973. What follows was taken directly from that booklet. This may help those interested in assembling a complete collection of back issues understand where to look for these.

Through 1948, the Society purchased space in *Western Stamp Collector* to communicate news to its members. During this same period of time, periodic bulletins were issued to the members on various postal stationery subjects. In May, 1948, Dr. Walton I Mitchell and Mr. Eben Farnsworth began a private publication entitled *Postal Stationery*, which contained information on foreign stationery items. This private publication, issued bimonthly, was appointed as the official organ of the Society in May, 1949. In December, 1952, Dr. Mitchell was forced to resign as editor due to failing eyesight, and Mr. Farnsworth assumed the dual roles of editor and publisher. In January, 1954, Mr. Farnsworth ceased his publication and merged it into *Covers* magazine, while maintaining the editorship of the postal stationery section. The UPSS board of directors adopted this new magazine, *Covers and Postal Stationery*, as the society’s official organ. This arrangement lasted for just 12 issues, and in January, 1955, Mr. Farnsworth again resumed publication of *Postal Stationery*; however, this time it was issued monthly, rather than bimonthly. In August, 1956, Mr. Farnsworth sold the magazine to Mr. Emmett Peter, who assumed the dual functions of editor and publisher and changed the name to *Postal Stationery and Postal History Monthly*. In December, 1957, Mr. Peter reverted to a bimonthly publication, although the name remained unchanged. In July, 1960, Mr. Farnsworth again assumed the role of publisher, with Mr. E. Norman Lurch serving as editor. Also, the name was changed back to *Postal Stationery*. During 1961, the non-UPSS members who subscribed to the magazine were notified that they would have to belong to the Society in order to continue receiving *Postal Stationery*, as the Society had assumed control of it. In January, 1962, Mr. Farnsworth succeeded Mr. Lurch as editor of the magazine. Due to pressures of other work, Mr. Farnsworth stepped down in October, 1963, and Mr. John Randall became the new Editor-in-Chief. On January 1, 1968, Donna von Stein took over the reins of the magazine. Donna’s husband, Paul had become the printer of the magazine in 1966. In 1970, the von Steins established an annual literature award for the best article published in *Postal Stationery* during a one-year period. The first award was presented to Dr. N. Mooss of India; the second was won by Mr. Robert Dalton Harris for 1971; and the 1972 trophy was presented to Mr. Fred Johnson of Canada. In April, 1972, Donna and Paul concluded their tenure of service to the Society when they turned the magazine over to the (then) present editor, Jack L. Jenkins. Precancels  
Precancel Stamp Society - Great Britain, UK.  
1954- In progress.  
Over the years, the title on the masthead has varied:- Precancels; ‘Precancels’ or
“Precancels”.

- Superseded The Precancelist and Lee’s Summit.
- With the issue of April-May 1962 (Volume 8, Issue 4) and until that of August-September 1964 (Volume 10, Issue 6), it was also the official Journal of the Canadian Precancel Study Group.
- Between Volume 10, Issue 3 of February-March 1964 and Volume 12, Issue 4 (Undated, but early 1967), the titling was very erratic and often omitted. This period gave rise to the following apparent titles: The Journal of the Precancel Stamp Society (GB) and the Canadian Precancel Study Group (Volume 10, Issue 3 to issue 6); The Journal of the Precancel Stamp Society (GB) (Volume 11, Issue 1 to Issue 6 & Issue 11/12).
- The issues from Volume 11, issue 7 to Issue 10 and Volume 12, Issue 3 to Issue 4 were completely untitled, with no heading that could even be taken for a title.
- The magazine carried its proper title from Volume 12, Issue 5 (undated), of mid 1967.
- Volume 16, issue 3 should be Volume 15, issue 3 & Volume 17, issue 3 should be Volume 16, issue 3.

This publication was issued in two sections: (1) The Title Page and Parts 1 to 4 covering the British Journal, foolscap size, in 1959. (2) Parts 4 to 5 covering the American Journal, quarto size, in 1960. It is for this reason that incomplete copies, containing either the first three or last two of the five parts, are frequently encountered. Parts 4 & 5 were issued as a supplement to the Rossica Journal of Russian Philately, Issue 60.

1974-78; Volumes 22-26 (Whole number 137)
This index, obtained from Australia Post, was accompanied by a manuscript note (signed A. Tildman) stating that it was wrongly printed (re page no’s) and is in the process of being reprinted. A request for the reprinted index, 3 years later, brought only another copy of the original, defective index. A reprint would appear therefore not to have been produced. The error lies in the page layout and numbering, the correct order being 1, 4, 2, 3. (Classified subject index.)

Timbrophile, Le
Pierre Mahé, Paris, France.
1864-71; Volume 1 to Volume 7, Issue 12. (Whole number 84.)

- Number 3 is dated Fevrier instead of Janvier; number 10 is dated Juillet instead of Août and number 31 is dated Avril instead of Mai.
- There are catalogue supplements to number 1 and numbers 3 to 9.
- Number 3 was reprinted at Brussels. The reprint consists of eight pages in place of the original twelve pages and has the error in the date corrected to Janvier. The title and contents pages to the fourth volume was also reprinted. The reprint was re-set, the obvious difference being in the entry under Paris Postal, the 3 in 329 is in a smaller font.
- A special edition, less the supplements, was available printed on various coloured papers.
- Succeeded by the Gazette des Timbres.

THE PHILATELIC BIBLIOPHILES COMPANION

Section 2.2.1.4 Bibliography of Cumulative Indexes to Philatelic Periodicals

In 1971, I became the Librarian of the Security Endorsement and Perfin Society of Great Britain, now known as The Perfin Society. My search for articles relating to perfins, to add to the Library’s collection, resulted in my acquiring cumulative indexes to philatelic periodicals on an ad hoc basis, as and when they came to my notice. These allowed me to search whole sets of volumes at one time for the required articles, rather than ploughing through a series of annual indexes or worse still, checking each page of those periodicals for which no indexes had been published.

When David Zubatsky’s Bibliography of cumulative indexes was published, I furnished him with a listing of my holdings which he used in compiling his Supplement. At the same time, I decided to collect all of the cumulative indexes I could find, aided of course by Zubatsky’s list.

A few years after the publication of his Supplement, Zubatsky’s interests changed and he sent me all his notes requesting that I continue the Bibliography. This work was therefore begun in about 1985. Although directly descended from Zubatsky’s Bibliography, the current work is of far greater scope and detail in that it attempts to list every cumulative index of all philatelic periodicals.

INTRODUCTION

This bibliography is the direct successor to David Zubatsky’s Bibliography of 1977(1) and Supplement(2), published four years later.

The objective of this Bibliography is to provide a guide to sources of information regarding the contents of individual philatelic periodicals, under which heading I also include Annuals, Year Books and other serial publications. It will therefore list all indexes to philatelic periodicals, with the exception of annual or single volume indexes. I have also included important guides to periodicals, which give details of their contents, although not in index form. This latter class is epitomised by a series of articles published in The Journal of the Philatelic Literature Society, which give the history of a periodical followed by a resume of its contents. The rationale behind the inclusion of such articles is that they generally cover the contents, more or less extensively, of early or obscure periodicals which have never been properly indexed elsewhere. Although Zubatsky included these articles in his Bibliography, both Kaiser(3) and Negus(4) decried their inclusion in the introductions to their works. For my part, I can only relate that I have obtained references from these articles that I have not encountered elsewhere and this, in my view, justifies their inclusion here.

Indexes which cover a complete run of a periodical are always included, irrespective of whether the run consists of a single complete volume or just one or two issues. Occasionally, periodicals publish lists of indexes to back-issues which are still available for sale, usually in the form of the contents listed issue by issue. Such indexes are only included in this bibliography if no proper cumulative index exists. However, if they are superseded by a proper cumulative index, I will not bother to delete the earlier entry. In all cases, the type of index is indicated using a standard terminology explained later.

Retrospective and Current Awareness indexes, which cover the contents of large numbers of generally unrelated periodicals, are omitted from this bibliography. They are the subject of a separate Bibliography which is in preparation. Combined indexes to a small number of closely related periodicals are included in this Bibliography if it is considered that the entries for each periodical if taken on their own could constitute a cumulative index to that periodical.

One of the greatest problems in producing this Bibliography has been unearthing the publication details of the indexed periodicals. Early periodicals, to about 1906, are well served by the catalogue of the Crawford Library(5)(6)(7) and American periodicals are covered by Chester M. Smith’s American Philatelic Periodicals(8). Other information is scattered widely throughout the literature and is therefore extremely difficult to locate. Accordingly, I have tried to include the basic publication data for each periodical as completely as possible, especially details of changes of name, mergers with other periodicals, ownership changes and reasons for termination of publication, etc. It should be noted that this work was never intended to be a bibliography of philatelic periodicals. Although it contains a wealth of data pertaining to periodicals and could be used to trace their histories, its layout is not user-friendly for this purpose.

KEY TO
CURRENT-AWARENESS
&
RETROSPECTIVE INDEXES
Also
UNPUBLISHED INDEXES

Periodicals which have been indexed in current-awareness and retrospective indexes have that fact noted in their entry in abbreviated format - Year of first publication of the index, followed by the name of the indexer or source of the index, where the indexer is not named, as shown in the table below. This key allows one to determine exactly what the index was.

Unpublished indexes are listed under the name of the indexer

A full consideration of each index is available in the now separately-published Bibliography of Current-Awareness and Retrospective Indexes, Section 2.2.1.5 of The Philatelic Bibliophile's Companion.

Those given in red have had the journals they have indexed noted in this Bibliography. The entries below are generally only completed when the journals have been noted herein.
