M. BLOCH, GENERAL-INDEX 1919
Published by "Weltpost-Echo", Teplitz, Price 8 Kr =8 marks

The author has carried out the detailed but unrewarding work of compiling an index to the contents of the German-language periodicals of the year 1919.

Why produce an Index for the German works?

The philatelic world would be grateful if a second Suppantschitsch would extend his 1890 bibliography to the present day. We are unfortunately very far behind in this respect, since we still have no general index of contents for the oldest magazines, **III. Briefmarken-Journal** and **Philatelist**, for example.
